

Live Class Solutions from the Most Trusted Online Assessment Brand- Think Exam!

Think Exam Live Class Solutions, Online Teaching Platform

Noida, Aug 25, 2020 ([Issuewire.com](https://www.issuewire.com)) - Think Exam the leading online assessment solution provider in India has taken a strong stand to support educational sectors during the COVID crisis with its [live class solution](#). Think Exam is a renowned product by the top online/offline assessment solution providers Ginger Webs Pvt. Ltd, and has made its mark on the global level by assisting millions of clients in conducting seamless online exams. Being on a road of constant innovation, Think Exam always looks forward to providing its users with all the updated technologies in the sector of education.

Witnessing the current situation of restrictions imposed on offline classes, Think Exam has upgraded its live class solutions to make it apt as an all in one online teaching platform.

Think Exam live class solutions is a trusted product by 100+ businesses of all sizes. It is being effectively used as virtual classroom software by schools, colleges, and also by many coaching institutes to deliver real-time virtual classes. Its functionalities have been exclusively curated to serve the teaching requirements of educators, teachers, and trainers from various fields.

Assessment platform with main focus on live classes

- **Schedule Live Classes-** If you or your learners are not ready for an instant live class surprise then you can also go for a scheduled live class. Just set the topic, date, and time of the class and inform your candidates in advance about it through notification.
- **Sell live class courses-** Create a customized live class course with the help of an interactive interface, and sell it amongst a large pool of students from various educational backgrounds.

Use the mobile App to deliver instant live class sessions

No need to run for your laptop or a desktop when you have got an **online teaching platform** right on your mobile phone!

Think Exam live class solution is available in a comprehensive App form which is compatible with all Android and iOS integrated devices. This enables you and your learners to experience a captivating and consistent learning session that is not restricted to any limitations.

A real-time live chat feature

- **Instant Conversations-** If your learner has got a query you have to answer it that too “instantly”. Live chat is one of the most significant aspects of an engaging learning experience that promotes instant interaction between educators and learners.
- **Disable chat anytime-** It’s the choice of the teacher to enable or disable the chat window which can be used as per the requirement of the session.

Secure Video Broadcasting

You can stream unlimited live videos and other sorts of digital content through a secure and robust protected screening.

All this and many more features have been made available to the users of **Think Exam [online teaching platform](#)** for continuing with their regular classes even during the COVID crisis.

“Our motto is to empower the education sector with best of assessment facilities making it a seamless process for both the examiner and the examinee”- Ginger Webs. The company has strongly stood to its motto of empowering not just educational but even corporate sectors to conduct technologically enabled seamless exams. And now with its live class solutions, it is making a benchmark move to help every educator, teacher, and even learners to get access to constant and advanced learning/teaching platform.
