

Lyron Foster's Single '1:58PM' Reaches 10k+ Spotify Streams and #2 Spot on Hawaii Electronica Charts

Foster's unique electronica style has piqued the interest of audiences everywhere

Honolulu, Aug 11, 2020 ([Issuewire.com](https://www.issuewire.com)) - Lyron Foster's newly released track, '1:58PM', is quickly gaining the attention of audiences everywhere. Foster's self-described "hacker pop", a blend of the digital sounds of electronica, drums, and ethnic stylings from some of his favorite travel destinations, is being embraced by people around the world.

Foster lives in Honolulu, Hawaii, and was a technologist before becoming a musician. He's also a serial entrepreneur who has founded or co-founded 87+ companies in 4 countries. Foster hasn't stopped there; he's also an author, coder, filmmaker, and actor.

Foster's music has gained the attention of electronica fans in Hawaii and beyond. He's released a long list of singles including '3:14AM', '9:15PM', 'Shanghai', 'Kenya', and '600 Calories'. Now, he's rising in the charts with '1:58PM'.

The new single offers a smooth, fluid electronica sound that captivates listeners. Within thirty days of the release of '1:58PM', the song had reached more than 10,000 streams on Spotify. In addition, Lyron secured the #2 spot on the Hawaiian charts for electronica music.

When Foster realized he was ranked second in the charts, he said, "This is a really cool discovery. I can't help but feel a little bit cooler."

When he's not in the studio working on new music, Foster is working on producing his highly anticipated new film, 'In the Re-Beginning'. The new film will be completely digitized with CGI because COVID-19 shut down on-set production opportunities.

Foster's music is available on all major streaming platforms including Spotify and Apple Music.
