

New Programmable, Scrolling LED Face Mask

Turn your mask wearing experience into a fun interactive statement that will leave people talking!

Tampa, Aug 18, 2020 (Issuewire.com) - Let your mask do your talking. Our fully customizable, scrolling LED mask allows you to program any text to display on your mask. Great for company slogans or phrases as well as expressing yourself!

- [Links to an app](#) for ease of use and control!
- Multi-layered for added protection!
- Secures around the back of your head and includes earloops for extra comfort!
- Supports 10 languages!
- Eight hour battery life. Uses standard micro-USB cable for charging (included)!
- [One size fits most!](#)

JustMask.me can accommodate any custom branding, colors, or volumes.

Our mask is made from a combination of breathable cotton and polyester. The other mesh layer is 100%

polyester and the inner lining is 100% cotton. The mask provides a soft, comfortable fit for daily use.

To clean, we recommend removing the LED panel and hand washing.

This mask is not intended for medical uses. This is a novelty item and should be used as such. JustMask.Me makes no claims of effectiveness against airborne illnesses.
