

Zaun Sports Fencing Used to Provide Football Facilities to 350 Children

West Midlands, Aug 11, 2020 (Issuewire.com) - Suffolk based football team Beccles Town FC have been congratulated on an 'amazing achievement', with the installation of a state-of-the-art full-size 3G pitch at the club.

Peterborough based [Plant Fencing Contractors](#) installed [Zaun Super Rebound](#) sports fencing around the perimeter of the pitch and [Spectator Rail](#) at pitchside. Super Rebound, forms an extremely robust perimeter around any pitch, that not only increases ball retention, but also vastly improved the gameplay experience.

Zaun [Super Rebound](#) sports fencing also includes [EPDM inserts](#), which reduces noise to the surrounding areas of balls hitting the fencing by roughly 29%.

The new facility, which cost £770,000 and aided by a £598,000 grant from the Football Foundation was officially opened by former Norwich City midfielder Adrian Forbes. Forbes cut the ribbon at the 97m x 61m pitch at The Nest, the home ground of Anglian Combination Division One members Beccles Town FC.

The install was completed and used primarily for the club's under 16s and under 17 players. Beccles Town FC runs four adult teams including a ladies' team and 24 youth teams, which provide football facilities for around 350 youngsters.

Suffolk FA Chief Executive Richard Neal "This is an amazing achievement for a club like Beccles Town

to have a facility like this. We hope it will not be only life-changing for the players involved in the club now but in the future and for the whole town.”

Mayor of Beccles Elfrede Brambley-Crawshaw said: *“It is an amazing achievement to create these facilities here in Beccles. I can’t imagine the volunteer hours that went into ensuring the town has these facilities.”*

Club Chairman David Leech said: *“Some of you may know that recently I have questioned why we do what we do. I have only managed to find one answer – and that is family. Everyone at this club is part of our family, our community and our club. We have all started as volunteers but we have all grown to be friends and family. The support that people have shown me personally tells me everything I need to know about why we do it and why we love our town and our club.”*
