

Ace Magic Studio announces the launch of Time is Magic Animated Playing Cards on Kickstarter

A high quality deck of time/steampunk style cards with built in animations and gold foiled box. Great for collectors and magicians.

Canvey Island, Sep 10, 2020 (Issuewire.com) - Ace Magic Studio latest creation, Time is Magic Animated Playing Cards, has already reached 70% of the Kickstarter goal and is celebrating a successful launch on Kickstarter.

These are custom-designed poker-sized cards. They look and feel GREAT. The detail is exquisite. As you will see, Gary has combined the powerful idea of time with a sprinkle of steampunk.

To enhance the already gorgeous design, the tuck boxes are gold foil printed, giving a STUNNING shine, catching the light with every movement. These high-quality playing cards will be printed by Ivory Graphics in the UK.

The faces of these cards are beautifully designed. Whilst maintaining the simplicity of standard card faces, Gary has infused a subtle steampunk background design.

The corner pips (Club, Heart, Diamond or Spade) have been replaced with small clocks. The hand on the clock points to the value of the card. The more you look, the more intricacy you see. These cards look amazing in use and are great for card games, collectors, display and magic alike.

There are two decks available, Red and Blue.

Order yours today and support this Kickstarter at:
