

Alloffic.Space Reaffirms Their Commitment To Mexico At Querétaro

Emphasizing the education of its clients to challenge adversities, AllOffice.Space offers two new offices for rent in Santiago de Querétaro.

Queretaro, Sep 4, 2020 ([IssueWire.com](https://www.issuewire.com)) - Keeping with their disposition to educate clients, the Canadian leasing firm [AllOffice.Space](https://www.alloffic.space) makes available two new locations for rent in the Mexican city of Santiago de Querétaro. Offering practical and adaptable solutions to ensure physical-distance measures among employees and adequate sanitizer stations, the firm maintains its resolve to share the

acquired knowledge on other markets to clients. Helping them to adapt to the COVID-19 challenge, and providing tools, so they can continue running their businesses more effectively and healthily.

"Since we started this area of business, our main goal apart from the leasing services has always been to support and teach our clients to succeed." - said Chris Allen, Director of Sales & Marketing of AllOffice.Space. "This world sanitary issue has reinforced our goal, and now we are more determined to increase efforts to help customers overcome these difficult times."

As of August, the state of Querétaro reports more than 3 thousand cases of COVID-19 contagion with a recovery rate of 70%. As one of the states with the fewest cases in all Mexico, the regional government is already taking steps to develop awareness plans to activate the productive sector. The main idea is to launch a large training campaign on COVID-19 to reinforce in the population the correct hygiene measures, and the proper procedures to carry out daily activities in the outside, without exposing themselves. Although the campaign focuses mainly on the population, the state highlights the need to carry out joint work with the private sector.

The need to adapt workplaces and guaranteed the proper sanitary environment for employees is a must-do. In the end, productive continuity will depend on the ability of businesses to face and control this challenging scenario.

"These are skilled professionals, knowledgeable of how to face the actual sanitary challenge, and willing to do that extra mile to ensure that client's needs are meet." Said Jesus Garcia, Contador Público.

About AllOffice.Space

AllOffice.Space is a commercial real state firm founded in 2012 by Chris Allen. The company grew to encompass small and medium-size office listings in every market across Canada and the US. And developed a way to find furnished offices with flexible lease terms, from many sources. Focusing on clients who seek small places to run their business.

AllOffice.Space it centers on a person to person customer services 24/7, allowing clients to get support when needed.

Whether you're an entrepreneur or enterprise client, the AllOffice.Space team seeks to support the business workforce to do their best from comfortable places around the world.
