Anca Staii, MD, an Endocrinologist with Diabetes and Endocrine Center

Get to know Endocrinologist Dr. Anca Staii, who serves patients in Dracut, Massachusetts.

New York City, Sep 2, 2020 (Issuewire.com) - Dr. Staii is a board-certified, fellowship-trained endocrinologist whose clinical interests in thyroid biopsy, thyroid disease, thyroid cancer, insulin therapy, osteoporosis, and calcium/parathyroid disorders. She works at Diabetes and Endocrine Center in Dracut, Massachusetts.

Affiliated with Lowell General Hospital, Diabetes and Endocrine Center is a state-of-the-art physician practice that opened September 17, 2018, to provide comprehensive, high-quality diabetes and endocrine services to patients in the Merrimack Valley. It joins together Circle Health endocrinologists and the clinical team from the Lowell General Hospital Diabetes Management Center into one location. The team offers care to new and established patients with endocrine conditions such as diabetes, gestational diabetes, osteoporosis, hyperthyroidism, hypothyroidism, diseases of the pituitary and adrenal glands, and goiters. The Center also provides support and education to empower patients to take charge of their medical conditions and health.

Throughout her academic career, Dr. Staii graduated with her medical degree from the Victor Babeș University of Medicine and Pharmacy, Timișoara in Romania in 1998. Upon relocating to the United States, she completed her residency in internal medicine at Hahnemann University Hospital, followed by her fellowship in endocrinology, diabetes, and metabolism at UW Health University Hospital in 2007.

With an unwavering commitment to her speciality, the doctor is board-certified in internal medicine & endocrinology, diabetes, and metabolism by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Endocrinology is a branch of biology and medicine dealing with the endocrine system, its diseases, and its specific secretions known as hormones. Endocrinologists have the training to diagnose and treat hormone imbalances and problems by helping to restore the normal balance of hormones in the body. The common diseases and disorders of the endocrine system that endocrinologists deal with include diabetes mellitus, as well as adrenal, pituitary, and thyroid disorders, among others.
