

Ayush Patel Is Inspiring Young People To Fulfill Their Dreams Despite Facing Difficulties

At 19, a youth from the rural area would be expected to be preparing for government jobs or striving for campus placements. But Ayush Patel has much bigger dreams

Trentino-Alto Adige, Sep 16, 2020 ([IssueWire.com](https://www.issuewire.com)) - The 19-year-old young India-based Cyber Security Expert & Founder of Ayush Security Solutions Ayush Patel, has become an inspiration for young people because of achieving a big milestone at a very early age. Despite facing a lot of difficulties in the path of his success, he didn't give up and achieved a big milestone in his career. In today's time, his reach is not just limited to the domestic level but he is also helping many agencies to solve complex cybercrime cases in the cyber world and mentoring people on how to escape 9-5 job and live financial freedom lifestyle through this venture impact millions online.

Ayush Patel attributes his success to following an intelligent success plan and working diligently to fulfill his dreams. His deep passion for hacking helped him dive into this stream and he utilized all his time in learning new things related to cybersecurity. Gautam had faced a tough time during his childhood and he didn't even have access to a computer system during his childhood learning years.

Despite having no access to necessary resources, Ayush Patel didn't give up and he started visiting cybercafe to learn concepts related to cybersecurity. And he used to wake up early in the morning to utilize the high speed of the internet for learning new things about ethical hacking. Ayush's love for cybersecurity and hacking had even landed him in jail once.

Ayush Patel has trained and helped various Peoples and Companies for solving various cybercrime cases. And by Ayush Security Solutions he also offers courses on cybersecurity to students at a global level and Providing IT and Cyber Security Services

Organizations pay him to break into their systems and identify vulnerabilities that criminals could exploit. He says he's never encountered a system he couldn't infiltrate. He is building inner circle hackers army to defend any cyberattack on India "its cyber army of free-thinking techies."

He is counted among the Youngest Autodidact Ethical Hacker. He is one of the most abiding success stories in the filed of Cyber Security, His company from Uttar Pradesh, Lucknow and it is through his visionary and compelling leadership.

He is a very Dedicated Person when it comes to his work. he has been struggling for years for his career to manage different kind of Youngsters. He has been diligently working for his Dreams... He believes that this is not enough for him and he is indefatigable. whatever he has achieved at a very young age might be everyone's fantasy...

These are the human potentials of India, and nowadays cybersecurity and ethical hacking is running in everyone's mind especially in Indian youths. You may see a lot more Young Indian Cyber Security Experts that will be going into this list in the coming years.
