

Burrard Pharma's new Website announcement

We are so excited to announce the launch of Burrardpharma' newly redesigned website -www.burrardpharma.com !

Vancouver, Sep 9, 2020 (Issuewire.com) - **Burrard Pharma's new Website announcement**

We are so excited to announce the launch of Burrardpharma' newly redesigned website -www.burrardpharma.com! Our extreme goal with this newly designed website is to create user-friendly exploring know-how for our trusted and valued, subscribers, customers and business partners. We hope you enjoy our new well-groomed responsive design that is easy to navigate and brought more content to you.

Know-How Page

Our current business partners, prospective clients and scientists will find applicable information about our services on the homepage of our website. There are direct links to our Know-How portals that will let you download and purchase +1000 of the master formula for your next adventure. All Know-How is available on the homepage, as well as technical information such as manufacturing process and application data.

Technical Support

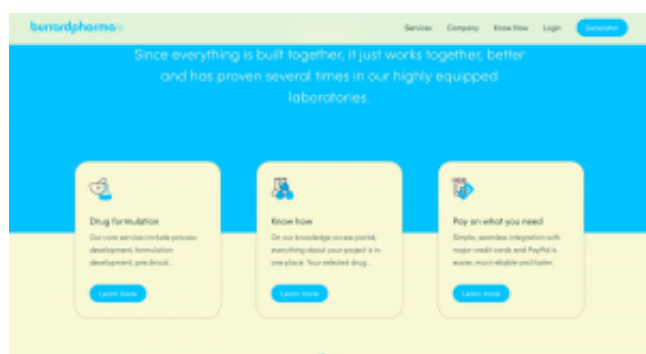

There are Online Chat and Technical Support with our Formulation Development team Expert, new products, technical brochures, special offers and resources When you subscribe to our services. We will regularly add some new products in the products list Generator section with full Master Formula. We

have a training program, laboratory support, publication program of your existing and future projects and Tech Transfer program that deliver our fully support across the world.

Social Media

The site contains integrated social media buttons for News, [Facebook](#), [Twitter](#), [Linkedin](#) and [Instagram](#) to cultivate improved communication with you. We will be constantly updating our content with helpful information, articles, blogs, company announcements and new products in the News section.

We are absolutely sure that on the new website you will find all the knowledge and necessary information required for your new drug development that you need. If you have anything you would like to share with us, including the request of consultation, feedback about your experience with the content and documents, please send us an email. We will be happy to respond in less than 24 hrs. WE PROMISE.
