

## Canada's Fastest Emerging Hip-Hop Artist Is Fire! "Homie G" Taking The Internet By Storm!

"The Homie G Effect" Is In Effect. This New Album Is Set To Premiere Worldwide This Week In Online Music Retailers Everywhere Thanks To Universal Music Group's Online Distribution Service.

Kelowna / Okanagan, Sep 9, 2020 ([Issuewire.com](http://www.Issuewire.com)) - "Homie G" has set flames to the nation with his new release "*The Homie G Effect*".

His career rocket propels right into stardom as he releases his first feature length album backed by major distribution and his mysterious promoter.

Is this what's next in the pipeline for "Homie G"? Could It Be His Time?

He recently featured, in 2019, on a project entitled "***The Rap Effect***" Which Received Over 30,000 Downloads which is certified gold In Canada. He spit his raps over A 13 minute song which was the opening track for the famed 7 disc album (The Rap Effect).

Now that 2020 is here he is taking off so quick he's breaking the gauges. This Canadian artist brings a unique, absolutely unique, rhyme style as in his yet to be released radio single "Game Game" also known as "I'm So Awesome". His first radio-single "***I Had Enough***" has already dropped and free to stream.

"**Homie G**" appeared to be inspired by "**Rap Master 1**" and has proclaimed that he is ready for super-stardom... and now that it is becoming, everyone can see the gold in him and hear it in his voice. He would like to thank everyone supporting the record and let them know to always believe in themselves no matter what. It's "***The Homie G Effect***"
