Get to know Chiropractor Dr. David A. Fischer, who serves patients in Basking Ridge, New Jersey.

**New York City, Sep 4, 2020 ([Issuewire.com](https://www.issuewire.com))** - Promoting health from within the body using chiropractic care, Dr. Fischer is the owner & operator of Fischer Health & Rehabilitation in Basking Ridge, New Jersey. In practice since 2001, he is committed to ensuring the health and well-being of his patients using a whole-person approach.

“Unlike allopathic or conventional medicine, which focuses on treating disease and symptoms once they occur, our emphasis at Fischer Health & Rehabilitation is on improving overall health thus reducing the risk of injury or illness in the first place. Most people agree it is better to maintain good health and avoid illness whenever possible. At Fischer Health & Rehabilitation, our primary goal is to support the body’s ability to do just that” as stated on the practice’s website.

By combining the very best hands-on-technique, state-of-the-art physiotherapy procedures, and the latest information on healthcare and wellness, Dr. Fischer is able to help accelerate and/or maintain his patients’ journey to good health. From some, he offers a rediscovery of health and wellness that had been previously known but long lost, while for others, he offers a new and improved state of well-being never before experienced.

Graduating with honors with his Doctor of Chiropractic (DC) degree from Life University, Dr. Fischer holds certifications from the National Board of Chiropractic Examiners, the New Jersey Board of Neuronal Conduction Studies, the University of Bridgeport for Neuronal Conduction Studies, and the International Academy of NeuroMuscular Therapies.

A Fellow of the International Chiropractic Pediatric Association, he is a member of the Association of New Jersey Chiropractors, the International Academy of Neuromuscular Therapies, and the Bernards Township Chamber of Commerce.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients’ health concerns, including neck pain and back pain. They aim to improve patients’ functionality and quality of life by properly aligning the body’s musculoskeletal structure and enabling the body to heal itself without the use of medication or surgery.
