The Legend of Birbal's Bull by Fawaz Jaleel is available on Amazon

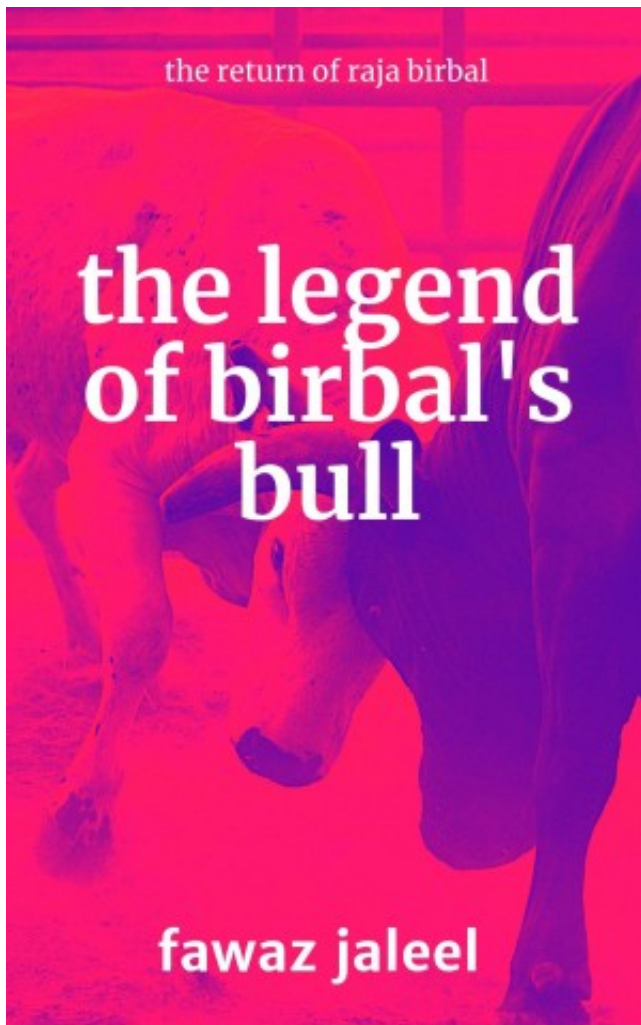

New Delhi, Sep 25, 2020 ([IssueWire.com](https://www.issuewire.com)) - Indian short story author and novelist, [Fawaz Jaleel](#) has published his latest short story, The Legend of Birbal's Bull on [Amazon](#). The story recalls one of India's legendary folklore characters, Birbal and presents him in a new light in the 21st century. Through this 15 minute read, author Fawaz Jaleel takes the readers through a complex issue affecting the Indian society- abuse and violence against women.

What's striking about this 15-minute read is it doesn't use a single woman character to convey this theme and draws parallels from the animal world to build on this theme. At a critical juncture of the story, the audience is introduced to Birbal who then employs trademark intelligence and wit to solve the crisis.

This is Fawaz Jaleel's third short story after [From the Land of Palaces](#) and [Inspiring Indians](#). When asked about his recent work, the author said - *"I just wanted to see if Birbal or his thoughts can be relevant in the 21st century. Turns out, he is the hero we need"*.

Fawaz Jaleel is currently working on his debut novel - a contemporary crime fiction that is slated for release in January 2021. The author said, *"It's going to be thrilling read with a cliffhanger at the end of each chapter. If you love investigative stories in the Indian context, this book is for you"*
