

Jason A. Graf, DC, a Chiropractor with Spine and Joint Institute of Wilmington

Get to know Chiropractor Dr. Jason A. Graf, who serves patients in North Carolina.

New York City, Sep 15, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Recognized as a skilled chiropractor, Dr. Graf first started private practice in 1999 in his clinic in Palmyra, New York. After vacationing to Wilmington, he fell in love with the area and decided to relocate to the coast of North Carolina in 2001, where he opened Spine and Joint Institute of Wilmington with offices in Leland & Hampstead.

The treatment center takes pride in providing the finest chiropractic wellness care, offering herniated disc treatment, pinched nerve treatment, spinal decompression therapy, and more. "Most people would rather be healthy and avoid illness, if they could. This is one of the main reasons for the big surge in the popularity of our wellness center. Let us be your number one chiropractor in the Wilmington, Leland & Hampstead NC areas. While we specialize in chiropractic and spinal care, we offer a variety of services to help get you back on your feet with ease" as stated on their website.

Following the completion of his Bachelor of Science degree from Keuka College in 1996, Dr. Graf went on to obtain his Doctor of Chiropractic degree from New York Chiropractic College in 1999.

With over two decades of extended training in non-surgical spinal decompression, the doctor exclusively treats patients with chronic and severe lower back and neck pain injuries.

Chiropractic is a form of alternative medicine that mainly deals with the diagnosis and treatment of mechanical disorders of the musculoskeletal system, especially the spine. A chiropractor uses spinal adjustments, manipulation, and other techniques to manage patients' health concerns, including neck pain and back pain. They aim to improve patients' functionality and quality of life by properly aligning the body's musculoskeletal structure and enabling the body to heal itself without the use of medication or surgery.
