

M/Douglas-M/Arthur Entertainment Inks Libya Doc-u-drama Series Distribution Agreement

Los Angeles, Sep 14, 2020 ([IssueWire.com](http://www.IssueWire.com)) - “Law & Ordure”, The State Of Libya; is a narrated documentary drama series slated for release February 2021.

A 13 episode narrative invites and transcends its audience into the perils of turns and twists of Libya’s internal politics and disputes. Inept political arbitrage and self-actualizations that would inflame the inhumane and engross the frustrations of its people and the lives that were turned to ruin by jejune politicians and dis-organized crime syndicates inside the corridors of its governing halls and institutions. Bargain basement political ambitions, inferior power struggles and greed stewed in a sadly comical misfortune of tragedy of in-ordinate proportion.

Based on the backdrop of true events in Libya, this copious Doc-u-drama aims to captivate and capture the tribulation of human disparaging. A narrative that travels beyond the sensational headlines and snap judgments borne from lawlessness and corruption; The fight and flight for money and the fallacious perceptions of power flagrantly steeped and stewed in tragical mediocrities.
