Med PPE Canada Inc. Launches New Retail Website and Online Ordering System

Edmonton, Sep 3, 2020 (Issuewire.com**)** - Med PPE Canada is a personal protective equipment supply company, established in early 2020 to help provide Canadians with a reliable source of PPE during and after the COVID-19 pandemic. The company is developing a permanent manufacturing capacity for vital medical-grade PPE products in the Edmonton region. Med PPE is pleased to announce the launch of its brand-new retail website, **shop.medppecan.com**, where customers will be able to directly purchase Health Canada and FDA approved PPE and similar protective equipment online.

“The launching of Med PPE’s retail website is another milestone we’re proud to achieve. With this resource, Canadians will have immediate access to a secure and reliable supply of high-quality PPE. Having this website will allow us to focus on growing our business and customer relations. It’s a really exciting time for us and we can’t wait to move forward to our next phase of growth.” **Terry Booth, Chief Executive Officer**

With the launching of the retail website, Med PPE is making its catalog of PPE available across provincial and international borders. This fully functional website is user-friendly, easy to navigate, and makes placing orders simple through our online system. This website is fresh and engaging, offers access to crucial PPE, enables direct customer ordering and processing, and most importantly, allows users to contact Med PPE with ease.

Through the Med PPE retail website, potential customers will be able to order essential PPE gear such as face shields, disposable and reusable face coverings, disposable medical masks, respirator masks, disposable gowns, disposable gloves, thermometers, and many more products. Med PPE Canada possesses a Class II MDEL for importation.

“Our new retail website, **shop.medppecan.com** will work hand in hand with our physical retail store to provide Albertans and Canadians with access to PPE at their preference. If you want to shop the traditional way, we are glad to accommodate and follow safety policies to make that happen. On the other hand, we recognize how important it is to provide the same quality service through our online site.” **Raymond Hajjar, Executive Vice President**
