Speech-Language Pathology is a field of expertise practiced by a clinician known as a speech-language pathologist (SLP), also sometimes referred to as a speech and language therapist or a speech therapist. SLP is considered a “related health profession” along with audiology, optometry, occupational therapy, clinical psychology, physical therapy, and others. The field of SLP is distinguished from other “related health professions” SLPs are legally permitted to conclude to certain disorders which fall within their scope of practice. SLPs specialize in the evaluation, diagnosis, and treatment of communication disorders (speech disorders and language disorders), cognitive-communication disorders, voice disorders, and swallowing disorders. SLPs also play an important role in the diagnosis and treatment of autism spectrum disorder (often in a team with pediatricians and psychologists).
