Hong Kong, Sep 24, 2020 ([IssueWire.com](https://www.issuewire.com)) - Prestarrs has always gained the recognition for procuring quality items at reasonable rates. The company's clearance sale, which is slated to begin in the first week of October 2020, will showcase variegated lines of [women's blouses](#), tops and t-shirts, along with footwear. The emphasis lies on western clothes - gowns and dresses in bulk quantities have already been stocked to facilitate greater purchases. The owners claimed that the clearance sale will now feature their latest collection of blouses, tops, t-shirts, and bottoms.

The current collection at the store boasts of all types of clothing in quality fabrics, cuts, designs and colors. Living up to its reputation at all times, Prestarrs has always paid heed to the material of each and every product. "The common misconception is that the pricing being so low, the products might not live up to the standard. The owners stated that their designers brainstorm through ideas and bring the eclectic collection, suitable to the tastes of the modern women. Even when the clearance sale starts, it must be noted that only high-quality items are supplied, keeping prices feasible," said one of the spokespersons for the company.

From [cheap t-shirts](#) to tops, the sale will allow customers to choose a wide variety of wardrobe basics, including outerwear and innerwear. Purchasing bulk items is a sure shot way to avail the free shipping facilities, as mentioned on the website too.

The managing director and CEO of the company were ecstatic about how the company has fared in all these years. "The clearance sale this time is no comparison to the previous years. We have stored a lot of items and customers can shop to their heart's content. There are great deals that must be grabbed at this time. Customers simply need to fill their shopping carts and the discounts will be effective, as stated in the site. However, we insist everyone read the rules and regulations ahead of the sale; lest wondering at why some items might not fall under the purview of the sale, at the time of checkout. For safety hence, it's better to stay updated."
