

Rockpals Offers The Best Solar Panel Charger In 2020

Los Angeles, Sep 19, 2020 ([Issuewire.com](https://www.issuewire.com)) - Are you always short of the power supply? Do you struggle with paying power bills? Do you love camping and vacations? Rockpals 100W Monocrystalline Solar Panel Charger is what you need with about 21.5 to 23.5% conversion efficiency. Stay charged with the power from the sun for only \$214.90 plus free shipping to anywhere you are in the world. Weighing only 10.8 lbs, lightweight, foldable and with an easy handle for carriage, there is no better way of ensuring that you do not face power outages especially during your outdoor activities. Your power can follow you wherever you go and you do not have to lose connection with your loved ones or not meet up to the deadline of that project. Rockpals Solar Panel will charge your phone, torch, laptop, etc.

You can also substitute solar power for any other form of power generation. Why? Solar power is the key to a clean energy future. Solar power can create large amounts of electricity without the uncertainty and expense of securing a fuel supply, operational costs are quite low compared to other forms of power generation. Solar power is a great way to reduce your carbon footprint. The sun provides us with more energy than we could ever use and no one can monopolize sunlight. Your solar power system will save you money from the moment you buy it especially if you are thinking long-term.

Why Rockpals Solar Panel? Because it is completely compatible: it is suitable for most solar-powered batteries on the market, different sizes of connectors including 8mm/5.5 * 2.5/3.5* 1.35mm DC Adapters for Rockpals, Goal Zero, Jackery 160/240/500, Anker or any other power stations, 5V USB devices including smartphones and tablets. It has a built-in smart IC chip that intelligently identifies your device and maximizes the charging speed while protecting your device from overcharging and overloading! Made from durable Oxford cloth, it is water-resistant to endure most weather conditions. It is also the best for outdoor activities like hiking, climbing, picnic, etc. It can be folded, with an easy handle, 24-month warranty, has a lifecycle of 10 years+ and can last 5-8 hours after charge! It's a win-win.

It has a power voltage of 18V, power current of 5.55A, an open circuit voltage of 19V, short circuit current of 6A, an output wattage of 50W-60W, and certifications from CE, FCC, RoHS.

What are you waiting for, get yours today.
