

The International MLS [IMLS]® Partners With the Pinellas REALTOR® Organization and Central Pasco REALTOR® Organization

Pinellas and Central Pasco REALTOR® Organization Members Become IMLS Members

Boca Raton, Sep 30, 2020 ([Issuewire.com](https://www.issuewire.com)) - The International MLS [IMLS]® announced today that Pinellas REALTOR® Organization and Central Pasco REALTOR® Organization has signed a partner agreement with The IMLS to provide IMLS memberships to its over 9,000 REALTOR® members.

According to The IMLS CEO/Founder and California broker Dr. Daniel Nussbaum, "We are extremely proud to say that we have entered into an agreement with the Pinellas REALTOR® Organization and Central Pasco REALTOR® Organization and that we have added their agents and brokers as IMLS members. Their members will now have all their listings in The International MLS [IMLS]® as well as on thousands of other agent and broker sites across the country and around the world automatically. They will also be listed in our Agent Directory, have full access to their own secure area in The IMLS Agent platform and be able to network internationally while providing their listings with international exposure."

With the recent announcements of The IMLS signing FMLS in Atlanta, the MIAMI REALTOR Association, Stellar MLS and AMPI, the association for Mexico real estate professionals, and now the signing of Pinellas REALTOR® Organization and Central Pasco REALTOR® Organization, The IMLS is proving its expanding global reach and is now experiencing exponential growth in memberships participation.

"Pinellas and Central Pasco Organization members will now also be able to take advantage of IMLS Special Product Options and Opportunities to build their businesses locally and globally. This includes The IMLS international web page with IMLS/IDX search and Google Translate which provides an automated global property sharing of listings between agents all over the world. Their customers can view all IMLS listings around the world in more than 100 languages with their web visitors staying on that agent's own URL and with the agent getting the buyer leads to make referrals to other agents as they choose. The IMLS makes it very easy for agents to network with each other anywhere in the world as well as share listings," said Dr. Nussbaum.

The IMLS global technology platform addresses the growing concerns about the direction of the real estate industry by making certain core ethical promises. The IMLS never advertises other agents on a personal member's listing page, and if a consumer is interested in a property, only that listing agent will receive the lead. The IMLS initiative is about putting the real estate market back in the hands of agents and brokers.

This agreement expands IMLS memberships significantly and continues The IMLS expansion throughout the USA.

"Prior to this, our growth in 2019 has already been exponential and we expect further significant growth ahead with associations, MLSs, brokers, agents, and developers participating. Our goal has been to bring the real estate world closer together by serving the best interests of all concerned. We are delighted that PRO/CPRO can see the strategic advantages for their agents to become IMLS members and join in with The IMLS global initiative, said Dr. Nussbaum."

"The Tampa Bay region is a magnet for international buyers, and our partnership with IMLS is going to

enable our members to expose their listings to an even larger international audience” said David B. Bennett, CEO of PRO/CPRO. “We are constantly on the hunt for products our members can use to elevate their business, and IMLS is definitely one them.”

About The International MLS [IMLS]®

The International MLS [IMLS]® is a real estate technology company and a global portal and products platform serving agents, brokers, associations, developers, buyers and sellers around the world. Based in Boca Raton Florida, The IMLS has listings in 70+ countries available in 100+ languages and The IMLS enables agents to have all listings for their own websites.
