Toro Steel Buildings and Future Buildings Announce Change of Address to Accommodate the Rapidly Expanding Market

Grand Rapids, Sep 15, 2020 ([Issuewire.com](https://www.issuewire.com)) - Toro Steel Buildings and Future Buildings are pleased to announce that, following months of rapid growth and in response to increasing demand for metal and steel buildings, their Grand Rapids sales office has moved to a new and bigger location.

New Address

801 Broadway Avenue Northwest
Suite 215
Grand Rapids, Michigan
49504

The modern, state of the art office suite at 801 Broadway Avenue Northwest in Grand Rapids, Michigan, will provide Toro Steel Buildings and Future Buildings ample space to serve our growing clientele. The office suite features all the modern facilities and amenities that will allow our customers to feel welcome and cared for. Our customers trust us not only for the high-quality metal buildings we offer but also for our excellent customer service. This new office space allows us to serve you even better.

“We are celebrating our many years of hundreds of thousands of metal and steel buildings in dozens of countries” – Marcel, Director – Future Buildings

We never stop reflecting on what has made us a good, strong, and successful company. Understanding the tenets that have been the foundation of 30 years of growth and following the simple standards that got us here will always be our key to “building for the future.”

Started in the early 80s, Toro Steel Buildings and Future Buildings developed a reputation for our successful product line that began with Quonset huts and other arch style buildings. As our customers’ needs have continued to evolve, so too has our product line. We now offer the popular straight wall design in various formats, including metal and steel garage kits carports. As our team has continued to expand, bringing together the smartest engineering, design, production and customer service professionals, our guiding principle remains the same – to provide high-quality steel buildings that meet the ever-changing needs of our customers.

As we revitalize our commitment to our customers by bringing services closer to you, you can be sure that we will continue to provide you with reliable metal buildings that meet your unique needs. We look to continue to cement our position as a leading steel building manufacturer in Canada, the USA, and beyond.
