Houston, Sep 21, 2020 ([Issuewire.com](https://www.issuewire.com)) - Here at Nu Dentistry, [Best Dentist in Houston Texas](#), we understand that you're busy, and we do everything we can to make sure your time with us is as smooth as possible. From the moment you walk through our doors and check in, we take care of all the little

details for you. You're never in our waiting room longer than 5 minutes, and we take pride in having your time in the dentist's chair as short as possible without losing any of our attention to detail. We are dedicated to patient first service! In other words, YOU are number one at Nu Dentistry, and our dedicated, personalized service guarantees your complete satisfaction. We perform everything in-house, so you never have to worry about referrals for another dentist or specialist. It's our honest belief that dentists should not only be amazing at what they do but as convenient and accommodating for their patients as possible. We're open Saturday so you never have to put off your visits or come in during work. If you are looking for a dental team that really puts your dental health first, give our office a call.

Our top-of-the-line facility is fitted not only with the latest technologies for our staff but for you too. Each suite is private, allowing you to take full advantage of the amazing amenities inside. Whether you're in for a routine cleaning or are having a major procedure done, have an enjoyable time with us as you watch Netflix, Hulu, or YouTube on one of the room's two televisions.

Imagine a smile that you love and aren't trying to hide! Our celebrated cosmetic dental team is the secret to your Hollywood smile in Houston! We'll provide you with a transformative treatment plan that gives you the incredible results you want at a price that doesn't break the bank.

Cosmetic dentistry focuses on the improvement of dental aesthetics, remodeling the appearance of your teeth, gums, or bite to exactly how you want it. We offer an incredible selection of procedures, including tooth bonding, veneers, teeth whitening, crown lengthening, and Invisalign, that can help you achieve the results you'd like. Our dedicated dentists will help you to realize your smile dreams while taking your overall smile appearance, including positioning, shape, sizing, and alignment into account.

Boost your self-esteem and better your health with a smile makeover! We offer the best cosmetic dentistry, bringing you a smile that lasts a lifetime. Let our team inspire you to create the smile of your dreams. What are you waiting for? Call us today for your bright, bold, new smile!

Our Bluetooth headphones leave your watching uninterrupted and the noise of your procedure a thing of the past. We believe that the dentist's office should never be a scary place, and we do our best to make even the most involved treatment as anxiety- and discomfort-free as we can. Even when first injecting anesthesia, we employ a range of techniques and devices, such as Dentapen and DentalVibe, that minimize the discomfort you may feel. For patients who are nervous about their visits, know that we take great care to make you fully comfortable and at ease. Our dentists are highly-trained in a range of anesthesia and sedation methods, so you always stay safe and relaxed during your procedures. If you have any questions or concerns, we're always happy to answer them.

The Nu Dentistry is one of the few clinics that provides all dental care under one roof, including Smile Design, Dental Implants, Invisalign, Botox and Fillers. With a focus on providing patients with high-end precision care in quick time, the facility is equipped with the latest technologies in digital dentistry, including machines for Trios, Xray, CBCT and more to take digital impressions and is staffed with a team of experienced dentists and specialists with a mix of Western education and experience. All the procedures are done with minimum manual intervention and with strict infection control protocols. The clinic also offers Sleep Apnea diagnosis and treatment options.

Keeping in view the global Covid-19 pandemic the center is providing treatment strictly by appointment only. By avoiding waiting times and continuing their focus on safe and sanitized care, there is minimum exposure of patients to others. "We have always had very strict infection and cross contamination protocols in place. So, in some sense, this is not a new world for us, just a slightly different one", adds Dr Bohluli on treatment in the current scenario.

Despite our best efforts and oral hygiene habits, dental emergencies can still happen when we least expect it. Teeth can become injured in an accident or from biting on hard objects. Fillings, crowns, or other devices might break or fall out. Teeth can become severely infected and put you at risk for serious health problems. If you're suffering from a dental injury or pain, give Nu Dentistry a call! Dental emergencies can be scary and painful, but we're here to alleviate both your pain and your anxiety. We offer efficient, first-rate dental service, putting your mind at ease every step of the way.

As with many emergencies, time is of the essence. Some dental pain is severe and requires speedy medical attention to prevent further complications. We'll schedule your appointment right away, even on Saturday. We believe that you shouldn't have to wait for toothache relief. At Nu Dentistry, we make sure that our patients receive their emergency dental care within minutes of arriving, even with short or little notice.

Our fantastic team of emergency dentists do everything they can to see you as quickly as possible. We can't stress enough that dental emergencies require swift action so that larger, more serious problems don't occur. We are a world-class dental specialty center prepared to treat your dental emergencies, whatever they may entail. Call us today for immediate service! When you need emergency dental services, you deserve a team who stays calm under pressure and is unrelenting in giving you the best service possible. We're Nu Dentistry, and we're fully committed to your comfort even when times are tough. We understand that you might be nervous about your treatment, but we're here to put your fears at rest. Everything in our private patient suites is designed to put you at ease, from luxury entertainment to sedation options available upon request. Our dentists go above and beyond to achieve your complete dental satisfaction, no matter your needs.

At Nu Dentistry, we do our best to save your teeth, but that's not always possible. Sometimes a tooth has decayed too much or fractured too severely for repairs like fillings, root canals, and frequent deep cleanings to be an option. Other times, extra or crowded teeth block emerging teeth from coming out without ruining the alignment of your arch. During cases like these, the best option to protect the teeth and bone around it is to have the tooth extracted. There are two kinds of extractions: a simple extraction and a surgical extraction. Simple extractions are for teeth visible above the gum line, and they can be done by loosening the tooth with an elevator tool and removing it with forceps.

Surgical extractions are done on teeth either broken beneath or un-emerged from the gums. This type requires an incision into the gums to entirely remove the submerged tooth. While this procedure may seem scary at first, our dentists make sure that your operation is virtually painless. We offer multiple anesthetic and sedation options, guaranteeing that you're always comfortable during your treatment. We offer many services, such as [implants](#), dentures, and bridges, that can help fill the gap and restore your missing tooth. We want to make sure you're always happy with your smile.

Our team thrives on perfection, and you can tell that as soon as you step through the doors of our lush, modern office. We do everything in our power to get you the dental results you desire at a price you can afford. Here at Nu Dentistry, we help all of our patients achieve and maintain long-term dental health by providing general, restorative, emergency and cosmetic dental services. Regardless of your age, dental

needs, or how long it's been since you last went to the dentist, we are here to help!

For less drastic changes than veneers or crowns, we can also fix your smile with the help of tooth bonding. With this quick, cost-efficient procedure, we use composite resin to repair decayed, chipped, fractured, and even discolored teeth. Tooth bonding is an extremely versatile cosmetic dentistry option. It can be used to lengthen short teeth, close unwanted gaps, and change a tooth's shape. The same resin is also used for tooth-colored fillings.

There's no end to the possibilities when you put your trust in us. Tooth bonding is the fast, hassle-free solution to perfecting your teeth. The process is completely noninvasive, meaning you won't need any anesthetic. Our skilled dentists can trim and shape your smile to exactly how you want it. Within half an hour to an hour, you can restore your teeth to their natural beauty. Ready to book your appointment? Call our office at (832) 916-4144 for your consultation.
