

World leaders join the board of Sapio Analytics

Lord Raminder Rami CBE, Lt General K J Singh PVSM, and Dr Dinesh Tryambake have joined the advisory board of government advisory firm Sapio Analytics, and will play a role in its global impact plans. Sapio currently has offices in UK, USA and India.

London, Sep 24, 2020 (Issuewire.com) - Sapio Analytics, a data-driven government advisory firm, with presence in UK, USA and India, has inducted new leaders to its global advisory board. The aim of the global advisory board is to help create nation building products using the intelligence of some of the greatest world leaders, it said in a statement.

Lt Gen K J Singh, former commander-in-chief of the Western Commands in the Indian Army and later an advisor to various governments, has joined the board. He is expected to provide his guidance to Sapio's strategies with a particular focus on Sapio's intelligence and defence focused operations. "It is a great privilege to join a team of Sapio Analytics, which is trying to leverage AI and data analytics to add value to public policy & delivery mechanism", he said in a statement surrounding the announcement of his appointment to the board. General Singh is currently based out of Delhi NCR in India.

Dr Dinesh Tryambake, a celebrated medical researcher and a former consultant to the United Kingdom National Health Service, has also joined the board. Sapio Analytics has a division called Sapio Smart Hospitals where it is creating a revolutionary impact in the healthcare industry through the formation of smart hospitals. Dr Tryambake is expected to provide his inputs to this division besides steering the global expansion of the company. He is currently based out of Australia as a Director of Calvary Health Care.

Lord Rami Ranger CBE, Baron of Mayfair, an Indian-origin British leader and member of the House of Lords UK, shall also join the board as an advisor to Sapio for its decision and policy support systems. Speaking about this role, he says, "I am delighted to work with Sapio Analytics. They are doing a great job of creating an impact on millions of lives through the use of new-age technologies in governance." The Lord Ranger CBE, as he is widely known by his title, is also the founder of Sun Mark group, a multinational marketing and distribution company with operations in more than 120 countries.

Sapio has recently been in the news for its services to the Government of India and other state governments in India, where it plays a major role in helping the governments take the right decision during the current COVID crisis and also help in economic revival. It also runs a Heritage Restoration Division, headquartered in Palo Alto USA, which is currently conducting a hackathon in India to help restore the paintings of Ajanta Caves in association with Rishihood University with support from the Ministry of Culture in the Government of India. In the UK, it is headquartered in Leicester and was recently joined by Mrs Leela Keshavji, as it's Head of International Operations.
