

Accomplished author and entrepreneur, Sierra Fearless, releases her new book titled “Manifest Success”

San Francisco, Oct 6, 2020 ([Issuewire.com](https://www.issuewire.com)) - Sierra Fearless, an accomplished author and entrepreneur, recently released her new guide for the motivated reader, *Manifest Success: A Journal for Creating a Happy and Prosperous Life in 21 Days*. Her inspiration to write this journal came from her desire to help others achieve their goals and create a roadmap for their future endeavors. Fearless believes that personal development is a multi-faceted journey that requires spiritual and practical

growth, and that true success is a journey that begins within.

Manifest Success is designed to lead readers through the process of self-discovery, critical thinking, and urges readers to confront the ways in which they hold themselves back. Although many people wish to become successful, they often struggle to apply their knowledge in a practical way. Fearless bridges this gap by explaining each point of transition in clear terms. Each step builds incrementally until, by the end of the journal, readers are empowered to apply three core success principles within their own lives. Those three core success principles are the laws of thinking, faith and action.

By following the method outlined in *Manifest Success*, individuals who aspire to improve the quality of their lives can unpack complex ideas in a safe, controlled environment. Fearless includes exercises to prompt further introspection without putting pressure on readers to make sweeping changes. Instead, she introduces simple tools that anyone can use to assess their progress, such as taking a few moments to assess inner thoughts or to complete an action step that will bring them closer to their goals.

Fans of Bob Proctor and Deepak Chopra will appreciate Fearless's candor and perceptive observations about what it means to be successful. By drawing on years of study in self-help and personal development, Fearless builds upon existing literature with her insightful contribution to the field. Reviewers describe *Manifest Success* as "highly recommended" and "thought-provoking." They praise Fearless's work as an invaluable aid on the road to fulfillment, independence, and success.

Sierra Fearless is a self-help author with a passion for leading others through the complexities of self-development using spiritual and practical success principles as the framework. She has a B.A. in Communication and Journalism and has avidly studied self-help for the past four years.
