

Cynthia Pollack, RN, a Registered Nurse with Ascension Macomb-Oakland Hospital

Get to know Registered Nurse, Cynthia Pollack, who serves patients in Michigan.

New York City, Nov 4, 2020 ([Issuewire.com](https://www.issuewire.com)) - Cynthia is a registered nurse experienced in critical care, intensive care, and cardiac specialties. She works in the Intensive Care Unit within Ascension Macomb-Oakland Hospital in Oakland Center, Madison Heights, Michigan.

Additionally, she works contingent in the Cardiac Specialty Unit at McLaren Macomb, Mt. Clemens, Michigan. She previously worked on a renal/ventilator unit at Ascension St. John, Detroit, Michigan.

Back in the early days of her academic career, Cynthia graduated with her nursing degree from St. Clair County Community College in 1996. She received both the Daisy Award and the Good Catch Award in 2018. She has also been nominated several times for the Daisy Award. She has served as a Service Excellence Advisor (SEA), on the Diabetic Education Committee, and on the Professional Nurse Practice Committee.

In good standing with several professional organizations, she is a member of the American Association of Critical Care Nurses and the Michigan Nurses Association. She attributes her years of success to working hard, having a good work ethic, and being a team player.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
