Free Registration

Bengaluru, Oct 26, 2020 (Issuewire.com) - ELGU India announces launch of its Newest e-Learning Platform ELGU (E-Learning Guru) which offers a revolutionary online learning experience with value added services.

ELGU India a Bengaluru based Education Technology Startup is launching its operations on October 26, 2020, Vijayadashami day. "We chose Vijayadashami for the launch of our E-Learning platform as the day has its significance for Learning and Education from ancient times in India" said Mr. Vijayasekaran, CEO – ELGU India.

ELGU or e-Learning Guru is an eLearning platform that leverages the best in class certified teachers from across the country specially trained for Online Teaching. ELGU uses the best media, and state of the art technology solutions to create high-quality, affordable and accessible online education for students. ELGU's revolutionary e-Learning platform will connect students to the best tutors anywhere in the country from the comfort of their homes and help them gain the best of knowledge and learning experience.

Mr. Vijayasekaran added, "ELGU symbolizes Easy Learning and Guided Understanding. The application allows students to maximize their academic achievement through Easy Learning with user friendly approach to understand the subjects better, under the Guidance of expert teachers who are well trained for teaching through online platforms."

ELGU is coming from the creators of Africa's premier e-learning platform eSchools Africa, which operates continent-wide to provide education for students. ELGU's team consists of passionate and talented professionals with a rich experience in the Education Technology domain.

ELGU offers highly personalized and effective learning programs for Grades/Standards (6 -12), UG, PG, and for aspirants of competitive exams like JEE, IAS etc.

"We at ELGU believe we will become the most preferred education platform for e-Learning across the globe." said Group COO & Co-Founder of Escchools Group & ELGU India, Mr. Michael Uyeh.

Teachers at ELGU are certified for their Online training skills and this rightfully blends with their subject expertise to impart the highest quality learning for every student.

ELGU also offers a variety of students needs based packages, where a student can select the type of learning preference, pick subjects, and choose the teacher, to enjoy a peaceful and professional online learning experience.

Explaining the unique advantage of ELGU India over other Online Education Platforms the BU Head of ELGU India, Mr. Venkatesha Madhavan said, "ELGU offers a stream of benefits to its students. We have integrated the state-of-the-art technology with top educational practices for excellent teaching via use of Smart Board. For knowledge transfer, we have built our own teaching platform – ELGU Classroom embedded with the best of content. Our app connects the students with the best teachers anywhere from the comfort of their home and facilitates easy learning through guided understanding."

ELGU India is facilitating their launch with a webinar on E-Learning titled "E-Learning - The way going forward" at 4 PM IST, October 26, 2020. This webinar is presented by eminent educationalists who discuss about the road ahead for Online Education along with the challenges and advantages. The Registration can be done at <https://app.elgu.in/campaign/elearning> with just the Email details and it's completely free.
