

Elizabeth (Beth) Hennes, RN, a Registered Nurse Case Manager with BrightStar Care of Madison

Get to know Registered Nurse Case Manager, Elizabeth Hennes, who serves patients in Madison, Wisconsin.

New York City, Oct 19, 2020 ([Issuewire.com](https://www.issuewire.com)) - Specializing in geriatrics, Alzheimer's disease, wound care, clinical trials, and IV infusion therapy, Elizabeth works as a Registered Nurse Case Manager at BrightStar Care of Madison in Wisconsin.

"Although I've only been working at BrightStar Care in the Case Manager role for four years, I had been

taking individual, skilled cases from BrightStar for several years prior as they would fit around other nursing positions I've held. I love being a case manager at BrightStar because of the variety of people I get to meet, educate, and assist with their medical goals, and the amazing opportunities" expressed Elizabeth.

The nurses and CNAs at BrightStar Care of Madison deliver professional and compassionate care in the comfort and familiarity of home. They are proud to provide a range of in-home care services to meet the unique needs of children, adults, and seniors. From companionship, case management, and personal care assistance to in-home infusions, wound care and medication management, the professional care staff is available 24/7.

Striving for clinical excellence on a daily basis, Elizabeth graduated with her nursing degree from Southwest Technical College in 2011. She then went on to obtain her Wound Care Certification (WCC) 2019.

A Registered Nurse Case Manager is a registered nurse who is responsible for the coordination of the various elements that are involved in the care of an individual patient. Their role is to use resources and services in the best way possible. They assist inside facilities, outside facilities, and between different care environments. As a case manager, one must focus on using strategies that are fiscally responsible, meaning they know how and where to get the necessary resources to deliver excellent care at a cost that is affordable. They will work together with patients and their families, but also with other physicians and partners such as the pharmaceutical companies and medical technology industry, as well as with insurance companies. As such, a registered nurse case manager must be an excellent communicator and have fantastic creative and organizational skills.

Happily married with 2 children, Elizabeth is very passionate about fitness and wellness, coaching youth soccer teams and teaching classes as her schedule allows.
