

How A 20 Year old boy from Indore set up a great example for all the Youngesters

Young boy from seoni malwa travelled to Indore with a Dream of Pursuing BBA from IPS academy indore but his legs slips from the college and he fell in the world of Business and End up in creating India 's leading digital marketing company.

Indore, Oct 9, 2020 (Issuewire.com) - A 20-year-old young boy Satyam Gour started his own company and became an entrepreneur. He started his TRY ONE DIGITAL Marketing company in Indore. His vision is to create a prestigious reputation for his company and something do

for society. He wants to spread awareness about digital marketing and want to expose the fake Gurus who sell online digital marketing courses.

- He belongs from seoni Malwa village of Madhya Pradesh and he studies in IPS College, Indore. In the past 2 years, he has managed to run his company successfully, and provide the best quality service to his customers. He mastered his skills to manage the business and worked on his communication skills to present himself better in the business world and he also provides training to the college students. He manages his own company and also provides knowledge about Digital marketing. He has his office near Bombay Hospital, a 20-year boy has his own office, people spend half of their life's doing business and not able to open their own office but Satyam shows too much potential and self-motivation in him. He has appreciable leadership skills and the ability to manage his employees who are bigger/elder than him in age. His company provides all types of digital marketing services in Indore and across the country. He has his own web developing team, content writer, sales & marketing team.
- And his friend Yash Madhav says, Satyam is very talented, courageous and can handle all kinds of situations very easily. His company Try One Digital hold's Marketing Partnership with Facebook, Instagram, and Google. His company also provides Hotstar marketing service. Satyam also runs an NGO, his NGO provides the education facilities to the poor children education related to mechanical tools, computer Accounting, and self-motivation.
