

iCard Offers Digital Visiting Cards with Nfc Embedded Technology

Windermere, Oct 21, 2020 ([IssueWire.com](http://www.IssueWire.com)) - This press release is written to inform the readers about the digital visiting card services provided by iCard.

iCard is pleased to offer its smart business visiting card with NFC embedded technology in Windermere, FL. They are considered as one of the best in providing digital visiting card service throughout

Windermere and dedicated to delivering the best quality works and wins the customer's loyalty.

Smart visiting card by iCard Live is loaded with the following features –

- 1) **Instant Contact Share** - I-Card instantly shares your contact, social & location details, ready to be saved in a phone's address book. I-Card allows you to change your contact details anytime & anywhere without reprinting your card.
- 2) **No Any Specific App Required** - Just tap your card on a compatible smartphone to transfer your data or show your content. No app to download. Just Tap your card and transfer your data to the phone. Everything can be changed anytime, anywhere, and as many times as you want just by adjusting your profile.
- 3) **All-in-One!** - With our I-Card you can share your name, company, website, bio, phone number, email, addresses, Social Media Networks, Venmo, Pay Pal, external links, your photograph or icon, and much more. The only thing that can't be changed is your user name. Keep your associates and friends updated.
- 4) **NFC Technology** - Embedded with Near Field Communication (NFC) Technology our I-Card will trigger a link to your secured profile. When tapped against a smartphone or device you can quickly tap "Add to Contacts" and instantly be added to the phone's contacts.

The major focus of the iCard visiting card is to make an excellent customer experience and make a safe & secure way to share your contact details during the Covid-19 pandemic to avoiding touching old traditional business cards.
