

Josephine Larmena, RN, BSN, a Registered Nurse with Preferred Home Health Care & Nursing Services

Get to know Registered Nurse, Josephine Larmena, who serves patients in Claymont, Delaware, and throughout Pennsylvania.

New York City, Oct 20, 2020 ([Issuewire.com](https://www.issuewire.com)) - Josephine is a registered nurse working at Preferred Home Health Care & Nursing Services in Philadelphia, Pennsylvania.

For over 30 years, Preferred Home Health Care & Nursing Services has been providing compassionate and dependable medical and non-medical home health care in New Jersey, Pennsylvania, and Delaware. Based on long-standing relationships with all of the local hospitals and nursing homes in the region and an intimate understanding of home care complexities, the highly skilled nurses and caregivers are deeply committed to helping patients and their families find the right level of care. They are available 24 hours per day, 7 days per week.

At the start of her academic career, Josephine graduated with her Bachelor of Science in Nursing from Holy Family University. From there, she went on to attend her Master of Science in Nursing at Purdue University Global-online degree program. In order to remain up to date in her field, she maintains a professional membership with The Sigma Theta Tau International Honor Society of Nursing. It is the second-largest nursing organization in the world with approximately 135,000 active members.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
