Mumbai, Oct 28, 2020 ([IssueWire.com](http://www.IssueWire.com)) - Kaustav Chatterjee aka Kausty began his youtube channel **Free TV kausty** in 2017 to produce free content and to help people explore the diversity and beauty of music. His recently launched podcast series 'Wow Podcast' to which he invites people from various walks of life to share their stories. As I have mentioned during our talks Wow podcast is not genre-specific. Every episode has been designed to bring you some kind of value adds. Each episode will charge you up.

Wow Podcast each episode had many anecdotes, but here are my two favorite Suhel Seth spoke about his Interview experience with Mr. Ratan Tata where he mentioned Age is not relevant and how Mr. Ratan Tata believes that how companies should give back to society.

And Palash sen: Don't just listen to the music which is suggested by your digital platform. Go to the search bar and search for the music you want to listen to. If everyone starts listening to the suggestion which is suggested by a computer algorithm then you will never get the flavor of various genres.

Tricks I do to Self Motivate

- Accomplish small tasks before handling big ones: Accomplishing small tasks makes us confident enough to tackle bigger ones. ...
- Write goals in the present tense: We mostly prefer to pen down our thoughts after a tiring day at work.
- And I'm a daydreamer and a night thinker meaning and through Wow podcast I plan to give back to society something at least.

I feel the Our competition isn't with others, it's with technology and advancement which is happening in a rapid manner. Staying relevant is much more important than finding out who is doing what.
