Dedicated to clinical excellence, he is board-certified in general surgery by the American Osteopathic Board of Surgery (AOBS). The AOBS is an organization that provides board certification to qualified Doctors of Osteopathic Medicine who specialize in the use of surgery to aid in the diagnosis and treatment of disease.

General surgery is a surgical specialty that focuses on abdominal contents including the esophagus, stomach, small bowel, colon, liver, pancreas, gallbladder, appendix and bile ducts, and often the thyroid gland. A general surgeon performs a wide range of abdominal surgeries for many forms of intestinal and abdominal wall neoplasms, gallbladder disease, gastric and pancreatic disease. They follow the patient through critical care and surgical recovery all the way to outpatient care.
