

Michelle Jennifer Watson, RN, BSN, MSN

Get to know Registered Nurse, Michelle Jennifer Watson, who serves patients in Alaska.

New York City, Oct 22, 2020 ([Issuewire.com](https://www.issuewire.com)) - As a well-versed registered nurse, Michelle's areas of specialization include medical-surgical nursing, telemetry, critical care, ambulatory, adjunct clinical instructor, long term, correctional and hospice care. She serves patients in Ketchikan Alaska.

At the start of her academic career, she graduated with her nursing degree from James Martin School of Practical Nursing. From there, she attended Immaculata University, earning her Bachelor of Science degree in Nursing in 2013 and her Master of Science degree in Nursing in 2017. In addition, she attended the BirchTree Center for Healthcare Transformation in Madison Connecticut where she received a Holistic Nursing Certificate in 2017.

In order to remain up to date in her field, Michelle maintains a professional membership with the American Nurses Association. It is a 501 professional organization to advance and protect the profession of nursing.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
