

Pinax Pre Engineered Buildings: Redefining Modern Construction.

Phenix Group is next-gen Pre-Engineered Building manufacturer in India. It has done lots of unique project throughout the one-decade existence on the market.

kolkata, Oct 15, 2020 ([IssueWire.com](https://www.issuewire.com)) - Pre Engineered Buildings or PEBs are the future of construction. They are meticulously designed and constructed by our team of veteran engineers. Then shipped and assembled on location. Quicker, sturdier, and cheaper than traditional construction- there's no reason to look away.

Pinax PEBs are made from recyclable and reused Steel, lending a strong sense of sustainability to the structure. The re-engineered process minimises the waste generation from construction, thus leading to a greener tomorrow.

Pinax has been a market leader in the steel industries for nearly two decades now. Wholeheartedly catering to both government and private sectors, the group has made a name for themselves in the emerging PEB market.

Pinax Group Advantage Over Other Group-

- 1) Accelerated conceptualisation to creation
- 2) Going "green" with sustainable construction
- 3) Premium production with assured quality checks
- 4) Can be relocated and reassembled, ideal for industrial sector.
