

Product Development Firm Neoito Opens Up in Salt Lake City

Best web and mobile App development company in Utah

Utah, Oct 21, 2020 ([Issuewire.com](https://www.issuewire.com)) - Neoito is a product development firm in India with a customer base across the US and Europe. An ISO 9001:2015 certified web application development company with bases in Trivandrum, India, they rapidly expanded their corporate goals across the markets of the USA and Norway. Neoito has announced the opening of its latest office in Salt Lake City, Utah with Joel McKay Smith leading the new office as the President of Neoito Inc. The new office is an indication of their plan on being an integral part of the Silicon Slopes Startup Community.

The Salt Lake City office sees Neoito establish its foothold in the Utah Tech community. Having been part of the growth of multiple Utah startups, this was the clear next step in accommodating the rapid growth of the company in Utah. The new office will enable Neoito to better position themselves to help budding startups and entrepreneurs gain access to their unrivaled technology expertise.

The company's expertise lies in the development of a fast and functional website and mobile applications with the technological implementation of Angular, React, Flutter, Node.js, AWS, Google Cloud, AI/ML and more. Their mission is to deliver customer satisfaction through advanced technology and innovation in the scope of web and application development that is trusted by all their customers. Targeting to emerge as the best service provider of custom web and mobile apps in the relevant market, they are looking forward to circulating their methods of Lightning Fast Software Development to improve product delivery and provide customers with the best functional satisfaction across various verticals and industries.

Complying with Quality Management System, legal, and customer requirements, Neoito strives

continuously to improve business prospects and processes by imparting the latest cutting-edge technologies in the developmental prospects of all their resources. As a result of their dynamic vision and functional adaptability, they are rapidly growing into the benchmark of technical feasibility. Neoito strategically tailors its services to benefit startups and enterprises that need an all-round technology partner, right from discovery, design, and development, to hit the market with search engine optimization.

Neoito's expertise in web development is unparalleled as we create apps that are streamlined for the frontline. Our Engineers and UX experts are well-versed in building both cross-platform and native mobile apps that both users want and need. Apart from web and app development possibilities, Neoito also offers innovation consultation for enterprises, enterprise architecture, user experience design, digital transformation, and MVP development prospects.

Joel McKay Smith, President of Neoito Inc. says, "I'm really excited to be a part of Neoito's expansion into Salt Lake City. The rich and ever-growing startup ecosystem in Salt Lake City makes it the best place for Neoito to showcase their commitment and dedication towards helping startups fulfill their potential."

[Faiz Mohamed Haneef](#), Founder, and CEO of Neoito says, "Neoito has long been part of Utah's startup community and it was only a matter of finding the perfect person to take charge of our operations. Joel is an amazing personality whose entrepreneurial spirit and strong business acumen will help us in this exciting new step in our future."

Serial entrepreneur and Co-founder of Daily AI, [Spencer Dusebout](#) was quoted saying, "I'm very happy to hear about Neoito's new office. Their presence in Salt Lake City will no doubt prove to be a major boost for tech startups in the region. Having first-hand experience of what they can bring to the table in terms of innovation and technology, I'm sure that they will have a huge impact on the tech ecosystem in Utah. I wish them the very best of luck in this exciting new chapter of their journey."
