SDA Solutions LLC Releases Nationwide Tax Lien, Deed, and Redeemable Deed Due Diligence Solution, Lighthouse

Speedboat customers can now utilize Lighthouse as their all-in-one research platform for all of their underwriting needs

Missoula, Oct 26, 2020 (Issuewire.com) - SDA Solutions LLC is pleased to announce the addition of Lighthouse to its list of enterprise products that serve the tax lien and deed investment industry.

“Lighthouse allows me to quickly explore and underwrite any auction nationwide with speed and accuracy while filtering and searching for the specific property type that meets my desired investment criteria,” said Trey Gulledge, Partner at USR Properties. “Also, the convenience of having a system that is flexible enough for me to work online or offline and sync once complete is huge.”

The combination and interoperability of Lighthouse and SpeedboatTM will enable SDA Solutions LLC customers the ability to research, underwrite, and service their entire nationwide portfolio of liens and deeds from within the same application.

“Lighthouse has a direct connection to the Tax Sale Resources server, so customers can expect the same quality and data they are used to seeing from the Tax Sale Resources team,” said Brian Seidensticker, Tax Sale Resources, Chief Executive Officer. “All data is run through multiple rounds of quality assurance and quality control to ensure users have confidence in their investment decision.”

About Lighthouse
Lighthouse is a powerful nationwide underwriting due diligence software built specifically for tax lien and deed investors. Lighthouse combines unprecedented nationwide coverage, blazing underwriting speed, and unparalleled search and filtering capability with the speed and flexibility of a modern web application. Lighthouse delivers investors the tools needed to underwrite specific lien auctions or conduct nationwide research to uncover new markets and opportunities.
