

The Spiritual Song 'I Feel Like Going On Mastered' is dished out with Elegance by Brian Mayes

The popular singer Brian Mayes has come up with the track 'I Feel Like Going On Mastered'. It is a magnificent gospel song by the Camden world music artist.

Camden, Oct 5, 2020 (IssueWire.com) - The story of **Brian Mayes** started when he joined the group founded by his mother 'The Mayes Brothers.'. They have come up with the enchanting track '[I Feel Like Going On Mastered](#)' executed with whole-hearted passion and reverence by the [Camden world music artist Brian Mayes](#). The fans of gospel numbers are happy with the futuristic production house '**Dinard Records and Radio**'. He has brought a new wave in the gospel with a contemporary style after he found solace in God. After that everything fell in the right place as he collaborated with the likes of Kevin Cloud and Reggie Funderburke and changed the name of the group to 'Brian Mayes and Heavenbound'.

The brilliant singer **Brian Mayes** has come up with the enthralling number '**I Feel Like Going On Mastered**' that has pristine sounds. It has been an eclectic and long journey of 18 years for the musician and he has named the project after the number of years that he spends in his chequered musical career. He has surrendered his entire life to get the blessings from the Cross of Christ and his love for the almighty has set an example for others to follow. His belief in God has reached such a level that he believes that his project is guided by the Holy Spirit and most definitely will be blessed with the best results.

It is a track coming from an incredible artist. He is working presently for a non-profit organization and whatever revenue comes out of it goes as a charitable fund for philanthropic causes like 'Boys and Girls Club'. The proceeds that are churned out by the music goes into helping the youth of 'At –Risk' and help them in getting admitted to college. To listen to more such tracks coming from the

major singer, the fans can plug into music streaming sites like [SoundCloud](#).
