

TV Caster App Offers One-Stop-Shop Solutions for Mobile-to-TV Connectivity

Screen mirroring from Android to TV has been made easy by innovative new screen mirror and TV casting app 'TV Caster'.

New York City, Oct 21, 2020 ([Issuewire.com](http://www.Issuewire.com)) - Offering a full portfolio of unique features, the TV Caster app is bridging the gap between mobile entertainment and TV entertainment. The [screen mirror app](#) helps smartphone users with [screen mirroring](#) and TV casting. While users can use the TV casting option to play media files from their phone to their TV, they can also use the screen mirror feature to fully replicate their phone's screen on their TV, in real-time.

A spokesperson for the app made a press statement "Screening mirroring or TV casting is not a feature that all smartphones come equipped with. However, with our [screen mirror app](#), any Android user can enjoy a premium screen mirroring or TV casting experience without any lags or glitches."

More app features can be seen at <https://www.screenmirroring.me/>.
