

W. Christopher Croley, MD, a Physician with JDCC Skincare

Get to know Dr. W. Christopher Croley, who serves patients in Pensacola, Florida.

New York City, Oct 30, 2020 (IssueWire.com) - Recognized as a highly trained aesthetic physician, board certified in multiple specialties, Dr. Croley treats patients at JDCC Skincare in Pensacola, Florida. He works alongside Jerry D. Drinkard, ARNP, offering services such as Botox, fillers, microneedling, chemical peels, thread lifts, P-shots, O-shots, and laser therapy. Not only does Dr. Croley treat patients, he routinely teaches other physicians and healthcare providers the latest techniques in aesthetic and anti-aging medicine.

“At JDCC Skincare, we know how important it is to be confident in your appearance and comfortable in your own skin, which is why we utilize only the safest, most effective aesthetic treatments to ensure you leave our office happier and healthier than when you came to us. Whether you are dealing with acne, wrinkles, hair loss, or skin texture issues, we offer best-in-class medical aesthetic services to keep you feeling and looking your best. We are experts in identifying the underlying cause of your skin condition and will work tirelessly to develop a treatment plan that works best for you and your lifestyle” as stated on their website.

After earning his medical degree, Dr. Croley completed specialty and subspecialty training in Chicago, Illinois. He completed his residency in Anesthesiology at Rush University Medical Center where he served as Chief Resident and subsequently completed a Critical Care Medicine Fellowship at Northwestern Memorial Hospital.

An active member in the American Society of Anesthesiologists, Dr. Croley has participated in numerous meetings with legislators in Washington, D.C. to discuss issues important to the specialty of anesthesiology as well as medical education. While completing his fellowship, he worked in a part-time capacity as an attending anesthesiologist and instructor at Rush University Medical Center.

Thereafter, he was appointed as the Associate Director of Residency Education for the Rush Department of Anesthesiology. He also served as Co-Medical Director of the Rush University Simulation Laboratory (RUSL) where he was accountable for overall simulation management through University Affairs and was appointed to the Department of Anesthesiology as Medical Director of the Surgical Intensive Care Unit (SICU).

Thriving in his field, he is board-certified in anesthesiology and critical care medicine by the American Board of Anesthesiology (ABA), whose mission is to advance the highest standards of the practice of anesthesiology. As the certifying body for anesthesiologists since 1938, the ABA is committed to partnering with physicians to advance lifelong learning and exceptional patient care.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration.

As a testament to his success, Dr. Croley has published multiple manuscripts and abstracts related to critical care and medical education. In February 2006, he received recognition from the American College of Chest Physicians for his role as Co-Director of an International Medical Simulation Workshop

in Montreal.
