

A Powerful Ideation and Visual Organization Tool, MindMapper 2021 Released

Irvine, Nov 23, 2020 ([IssueWire.com](https://www.issuewire.com)) - From ideas to planning and organizing meeting notes, there is none like the MindMapper tool for quickly organizing thoughts. California based SimTech USA is pleased to announce the launch of the updated [MindMapper 2021](#), a visual mapping tool with convenient features and flexibilities, including intuitive UI, smart design, and very easy and powerful workflow.

MindMapper 2021 is a delight to use for all executives, academicians, or learners. A visual thinking and collaboration tool, this new version is what it takes to turn thinking into results in just three easy steps. Use MindMapper to play around with new ideas, solve intricate problems, or find out new ways to improve business outcomes.

"We've completely updated our mind mapping software, so you can keep planning, brainstorming, and visualizing your next great project with beautifully designed custom mind maps!" says a spokesperson from SimTech USA.

MindMapper allows for creating, organizing or presenting information anywhere, anytime. This visual thinking tool is also good for creating a 360-degree view of ideas and comes with a revolutionary dashboard and integrated planner. It was never so easy to track and assign tasks or take notes in a logical way. Users can cut down meeting times by half, and double their focus and concentration. The visual aid is also great for streamlining work processes or work manuals.

For over 22 years, MindMapper has been a favorite tool for solving problems, organizing ideas, or creating logical connections. The software is currently popular across 90 countries in fields as wide apart as education, business, multinational conglomerates, home, government, or military. The first version of this pathbreaking tool was revealed in 1998 and went on to sell over a million copies.

The recent versions of MindMapper come with powerful utilities and features, such as exporting to MS Office, Gantt charts, online collaborations, and a powerful graphical editor for visual mapping.

About SimTech Systems

SimTech USA has been making mind mapping software since 1998, making everyday life easier and businesses more productive by applying visualization, ideation, and creativity. MindMapper is sold globally and used by companies of all sizes - from Fortune 500 enterprises to small offices, to individual consultants. MindMapper 2021 is available for a free trial or to purchase.
