

All Office Spaces Moves From New York To Sunny Florida.

The lease & real estate firm moves their east coast office in New York, to Aventura, Florida.

New York City, Nov 25, 2020 ([Issuewire.com](https://www.issuewire.com)) - The popular real estate and leasing firm AllOffice.Space makes a smart move by moving its main east coast office from New York to Florida's Sunshine State. With a new location in Aventura's pleasant city, AOS makes this decision as part of its response to the high economic challenges caused by the COVID-19 pandemic.

To avoid red numbers due to the high costs of maintaining an office in the Big Apple, the firm seeks a

more favorable business scope to continue its operations and maintain the high standards of services that characterize it.

"Despite the great challenges this year has given us, we remain focused on continuing to grow and deliver flexible office options to our customers." - said Chris Allen, Director of Sales & Marketing of AllOffice.Space. "Working from the city of Aventura will help us maintain our high standards and continue to innovate in the way we do business."

As it is known to many, the famous Sunshine State enjoys a warm and sunny climate most of the year. This, coupled with the lower living costs, attracts more and more investors from the rest of the country to their beaches. Compared to New York, the cost of living and taxes in Florida is dramatically cheaper. While home values vary depending on where you live, even the most expensive Florida city is still less expensive than Manhattan. Also, Florida is one of the seven states that does not have a state income tax, which translates into 13 percent less to the state and municipal tax bill.
