

Carahsoft Leads the Way Supporting Innovative IT Solutions as a Distributor for the Turing Shield

Together Carahsoft and Turing Video are helping federal, state & local agencies and academic institutions reopen from Covid-19 shutdowns.

San Mateo, Nov 13, 2020 ([IssueWire.com](https://www.issuewire.com)) - Carahsoft is the trusted government IT Solutions provider known for delivering best-of-breed hardware, software, and support solutions to federal, state & local government agencies as well as higher and lower education.

[Turing Video's](#) Turing Shield, America's #1 Non-Contact Thermal Body Temperature Scanner, powered by the Turing Machine, Turing's fully-encrypted Biometrics data platform, provides employers with the ability to monitor, report, alert, remediate, detect fever, ensure mask compliance, and store contact tracing information in a cloud-based, fully-encrypted SOC-compliant platform.

As one of the most successful, fastest growing technology solution providers in the nation, Carahsoft is a master aggregator of best-fit technology that is also compliant with the necessary state and federal regulations to ensure business continuity, while enhancing safety and security for agencies and their employees.

"We are honored to provide our country's federal, state, and local governments and academic institutions with IT solutions that best fit their needs and budgets," said Carahsoft President, Craig Abod.

"We have established long-term strategic relationships with industry-leading software and hardware companies, and the technology developed by Turing Video combines best-in-class technology our clients have come to expect while also meeting all of the requirements set forth by state and federal

legislation for employers and employees doing business during the COVID-19 pandemic,” Abod added.

As the largest government reseller of the Turing Shield, Carahsoft is intimately familiar with Turing Video’s mission to help their clients get back to work in order to build better business in 2020 and beyond.

As part of this mission, Carahsoft and Turing are co-hosting an educational webinar on November 17, 2020 at 1pm EST to educate government facilities on how to safely reopen. More information, including registration for this complimentary webinar is available [here](#).

Turing Video’s Vice President of Channels & Alliances, Nick Mirizzi said, “When it comes to supporting FED & SLED clients there is none better than Carahsoft. We are so excited that Carahsoft has the same vision as we have, to help America and our government safely and securely reopen through the use of cutting edge technology that meets the evolving demands of state and federal government regulations.”

The only fully-encrypted technology made in the USA, Turing Video expects to release the next generation of their CDC-compliant technology in early 2021, with full FDA-approval.

Currently available in the United States and will be available in Europe in November 2020. For sales inquiries, contact Carahsoft at (+1) 703-871-8500 or Turing Video by email at sales@turingvideo.com or phone (+1) 877.730.8222.

About Turing Video: Turing Video was founded in the heart of Silicon Valley in 2017. Our team’s vision is to utilize AI and robotics to bridge the space between security and technology to advance industries and human capabilities. At our very core, we develop complex, deep-learning machine learning models to integrate with industry-proven robotics, video analytics, and health solutions to create interconnected AI-enabled IoT (Internet of Thing) solutions unlike any other in the world. Our diverse team of engineers and entrepreneurs create an environment rich in ideas, explorations, and solutions. Since our inception, we have expanded our footprint around the world where Turing’s products have become key assets for managing operations at leading real estate companies, top 100 retails, casinos and gaming, and corporate data centers.

About Carahsoft: Carahsoft has built their reputation as a customer-centric organization dedicated to serving the needs of technology manufacturers, government end users, and reseller ecosystem with Solutions for Government®. Ranked on the 2020 Washington Technology Top 100 list of largest government contractors in the Federal market for the 11th year in a row, Carahsoft has a proven history of helping government agencies find the best possible technology solution at the best possible value. Each customer works directly with a dedicated account representative to determine a solution tailored specifically to meet his or her needs. As a Master Government Aggregator®, Carahsoft combines extensive knowledge of the technologies we provide with a thorough understanding of the government procurement process, to analyze needs, provide configuration support, simplify the ordering process, and offer special government pricing.
