Seattle, Nov 16, 2020 (Issuewire.com) - [CrittEar](http://CrittEar.com)® is proud to announce that their **Calm dog earplugs** was selected by Modern Dog Magazine as one of the **'must have gifts'** to give your dog this holiday season! Joining a select group of unique, and award-winning dog products, CrittEar is humbled to receive this acknowledgement.

With the holiday season just around the corner, Modern Dog Magazine wants to make sure that all dogs with noise anxiety and noise phobia know about CrittEar's patent-pending, in-ear noise suppression

tool: *Calm* dog earplugs. Earplugs for dogs are especially important this year when more New Year's Eve fireworks are moving away from public gatherings in favor of backyard and neighborhood-based celebrations due to the pandemic.

A True Devotion To A Special Canine Helps Bring Dog Earplugs To Market

"I am so thrilled to be included in Modern Dog Magazine's holiday gift selection," said Susan Hansen, founder and CEO of CrittEar. "Building upon my years of professional audiology endeavors, I created my specialized dog earplugs after fruitless endeavors of searching for a solution for my much beloved senior dog who had developed advanced noise anxiety."

Hansen created CrittEar and produced *Calm*, a revolutionary, in-ear dog earplug with sound quieting technology and an ergonomically-perfected design that provides dogs with custom-fit hearing protection. *Calm* allows dog owners to protect their dog's sensitive hearing while they also provide a sense of 'calm' and comfort during anxiety-provoking situations. ***Dogs with noise phobia or noise-anxiety will benefit by using [CrittEar Calm dog earplugs](#) during NYE's celebrations as well as thunderstorms, or anytime they are exposed to loud sounds.***
