

Danat Coin Is The Key To The Future

Money Over Protocol

Hawalli, Nov 26, 2020 ([Issuewire.com](https://www.issuewire.com)) - I. Introduction

A. Who we are?

DANAT COIN TRUSTED BITCOIN COMPANY

Our Innovative site is the aftereffect of a comprehensive joint effort between a group of exceptionally committed Bitcoin industry lovers. We perceived that, while there were unquestionably numerous administrations for individual digital money sets, none offered a solidified arrangement that encouraged the trading of the entirety of the most well known digital currencies inside one single instrument. A test that we felt was just too acceptable to even think about refusing!

VII. Review

Upcoming IEO project, but I found this.

Strong interest in developing financial infrastructure for people. I think that the own integrated exchange is one of the reasons for the existence of the blockchain. This is really necessary.

Its idea of using blockchain to connect the mainstream, which is a parallel, more equalized system, is somewhat far-fetched and very interesting. However, it's also very difficult to put into practice.

The system is not complex, and it doesn't need a lot of people to make it effective.
