

Durham Capital Investments Announce the Launch of New Venture Capital Tech Start-Up Fund

Durham Capital Investments are launching a new fund which will focus on the high tech start-up ventures in the Asia-Pacific region which have the potential to become industry leaders.

Hong Kong, Nov 19, 2020 ([Issuewire.com](https://www.issuewire.com)) - Durham Capital Investments, the wealth management consultants based in Hong Kong, have announced the launch of their new Venture Capital Tech Start-Up Fund (VCTS), which will focus on providing funding for high tech start-up ventures which are already at the scale-up stage in the Asia-Pacific region.

The Fund will concentrate on identifying high tech SME companies which are either in the scale-up stage or in the first year of being fully operational, and which show growth potential and have a well-structured long-term strategy in place with regards to expansion.

Durham Capital Investments will then invest in these companies and actively support them, both in terms of funding, and through the sharing of resources in terms of experience and know-how with regards to operational management and market capitalization strategies.

The Asia-Pacific region is at the forefront of the smart revolution which is transforming the global economic landscape, and it is filled with innovative start-ups launched by creative entrepreneurs which are well equipped to succeed in the marketplace.

Durham Capital Investments' Director of Institutional Investments, Jeff Hadley, said, "We believe in the region's ability to produce innovative entrepreneurs who are ready to create products and companies which can shape the future of the smart marketplace as a whole. The consumer market in the Asia-Pacific region is extremely receptive and positively responsive to new ideas and products and this can only help these companies to succeed."

The VCTS fund will be aimed primarily at institutional and accredited investors, but will also be made available to individual clients who are able to meet the necessary minimum entry level requirements.
