

DWS Drone School, INC. Begins Training Georgia Residents to become Drone Pilots

Wilmington, Nov 24, 2020 ([IssueWire.com](https://www.issuewire.com)) - DWS Drone School, INC. (DWS) <https://dwsdroneschool.com> has been approved by the State of Georgia Nonpublic Postsecondary Education Commission to provide training for aspiring drone pilots starting on October 17, 2020. The school's location is at New Hope Church of God, 1738 Fairview Road, Stockbridge, GA 30281.

This 70-hour, 10-week drone training course, held on Saturday's from 8 am to 4 pm, covers everything from the mechanics of flying, to aviation safety, to the aeronautical information they need to become a certified and FAA Part 107 licensed commercial drone pilot, how to start your own drone business, editing and hands-on, in-field flight coaching by our highly qualified, experienced and FAA certified drone pilots.

Financing for qualified students is also available. An affiliate of DWS in Delaware is approved by the United States Dept. of Veteran Affairs. Veterans of Georgia can utilize their educational benefits to attend a drone virtual class in Delaware.

"Our students will receive a top-notch education in drone technology that will help them seize job opportunities in this \$100 billion dollar industry. We intend to start a Georgia pipeline of talented commercial drone operators to expand this technology sector and increase sustainable employment for men and women from diverse backgrounds ", said DWS President, CEO and General Counsel, Theophilus R. Nix Jr. This is done through our global staffing company, (www.drone-workforce-solutions.com).

From construction companies to agriculture, law enforcement, media, utilities, infrastructure, entertainment, construction, and real estate many industries have smartly identified drones as a key investment to make their operations more efficient and effective. Few have the staff with the expertise to implement the technology. According to one study, the expansion of commercial drones could add \$82 billion in economic value over the next ten years and by 2025 employ an additional 100, 000 Americans. DWS is currently seeking interested aspiring drone pilots for their next class scheduled to start October 17th, 2020.
