Exclusive Hire Vehicles Now Available

Optimize delivery services with a self-branded fleet from ATC

Exclusive hire vehicles are now available at ATC Couriers. If you are looking to hire a fleet of vehicles for your company's business needs, but don't want to deal with the hassle of driving them yourself, then using an exclusive hire company is a great solution. There are many different types of these hire companies on the market today, and there are many reasons that hiring them will be a wise move for you and your company.

There are several things that you need to look for when choosing an exclusive hire company. The first thing that you will want to look at when choosing an exclusive hire company is the type of vehicle that

they provide. ATC Couriers has a huge range of courier vehicles and [taxi trucks](#) to suit your delivery and fleet-hire needs. Simply choose the right vehicle to suit your job and you'll achieve the most cost-efficient deliveries. You can choose from a small vehicle under 1-tonne that has a length of 2.4m; height 2m; width 1.6m; weight 1,000kg; pallets 1-2 respectively to a 12-tonne Tautliner Truck + Driver that has a length of 7.3m; height 2.4m; width 2.4m; weight 12,000kg; pallets 12.

ATC exclusive hire vehicles can also include your signage (on the vehicle and uniform) to represent and promote your brand in the marketplace.

Also, in addition to the size of the exclusive hire vehicle that is being used, you'll also want to consider whether or not the company has any other types of transportation available for your employees. It can be very convenient to have someone come in and deliver items or supplies, so make sure that if you have this type of service that it's available for your company.

About ATC Couriers
