

Find Out About Your Soul Mate with Guiding Light For The Soul

Texas, Dec 12, 2020 ([Issuewire.com](https://www.issuewire.com)) - Guiding Light For The Soul has released a new product in the past life regressions focusing on soul mates, twin flames, and lovers. After doing hundreds of past life regressions safely for clients over the phone, Betsy, the regressionist has created a regression specifically to look at the lovers in our lives, the people we feel a special soul connection with.

Guiding Light For The Soul's session allows you to find perspective and understanding about why your lover is in your life at the moment, what past lives you shared with them, and what karmic ties you may have. Betsy helps clients to find answers to whether there was a lesson to be learned or if a soul mate is on its way. The session guides the client back into past lives and connects them with their higher self to achieve clarity and understanding.

Past life regression at Guiding Light For The Soul is not just a reading but allows the client to see and relive their past as they would with any other memory. It brings healing to those who have had their hearts broken by a past love and can bring closure with how things turned out. A new service is being offered by Guiding Light For The Soul with special discounts using code 75OFFLOVE during the holiday seasons. Visit <https://guidinglightforthesoul.com/> for more information.
