

Fred Muhletaler, MD, FACS, a Urologist & Oncologist with Palm Beach Urology Associates, P.A.

Get to know Urologist & Oncologist Dr. Fred Muhletaler, who serves patients in Wellington, Florida

New York City, Nov 16, 2020 ([Issuewire.com](https://www.issuewire.com)) - Dr. Muhletaler is a fellowship-trained robotic urologist & oncologist. His scope of interest includes all aspects of urologic surgery with robotic application. At present, he is a part of the team of professionals at Palm Beach Urology Associates, P.A. in Wellington, Florida.

Palm Beach Urology Associates, P.A. incorporates the latest treatment modalities, including robotic-assisted laparoscopic surgery, minimally invasive techniques with the use of lasers, as well as the traditional surgical approach to medical problems. The doctors and staff pride themselves on the quality of care and the personal attention that each patient receives in their practice.

With a broad educational background, Dr. Muhletaler graduated with his medical degree from Cayetano Heredia University in Peru. He then moved to Michigan, where he completed his residency in urology and fellowship training at the Vattikuti Urology Institute, Henry Ford Hospital. He spent more than 9 years training under Dr. Mani Menon, who is a world-renowned pioneer in robotic surgery. In 2002, he was probably the first medical student in the world to have second-assisted a robot-assisted radical prostatectomy.

In his current capacity, Dr. Muhletaler serves as the Director of Robotic Urologic Surgery at Palms West Hospital and Palm Beach Advanced Robotics. He also holds privileges at Wellington Regional Medical Center and JFK Medical Center (Main Campus and North Campus).

To date, he has participated in over 1,100 robotic procedures in urology of very diverse nature: oncology, female urology, urologic reconstruction, urologic transplant, and more.

A Fellow of the American College of Surgeons (FACS) and a member of the American Urological Association, he is board-certified in urology by the American Board of Urology (ABU). The mission of the ABU is to act for the benefit of the public by establishing and maintaining standards of certification for urologists, working with certified urologists to achieve lifelong learning to insure the delivery of high quality, safe, and ethical urologic care.

Urology, also known as genitourinary surgery, is the branch of medicine that focuses on surgical and medical diseases of the male and female urinary-tract system and the male reproductive organs. Urologists specialize in diseases of the urinary tract and the male reproductive system. Patients may be referred to a urologist if their physician suspects they may need treatment for a condition relating to the bladder, prostate, urethra, ureters, kidneys, and adrenal glands.

Outside of practicing medicine, Dr. Muhletaler enjoys playing tennis, listening to classical music, and going to the opera. He speaks several languages, including English, German, Spanish, and French.
