

Hacks for home schooling ... Ways to Inspire Your Kids

Los Angeles, Nov 10, 2020 ([Issuewire.com](https://www.issuewire.com)) - Enter the world of Shimmer the Glowworm add a little magic and creativity to your children's Homeschooling Experience

Shelby Herman, children's author, poet, and content creator of the "Show Your Glow" children's curriculum is committed to empowering young people through art, creativity poetry, and all forms of creative writing.

She expanded her platform as an author to create a Children's Online Learning Portal. The characters in her "Shimmer the Glowworm Finds Her Glow" themed book, lend themselves to great teaching moments by reminding children how bright they shine. The main character Shimmer the Glowworm. takes on a journey of discovery to get back her glow. Each time she makes a new friend she ends up inspiring them and upping her own glow.

The Curriculum is designed to promote social and emotional competence at the elementary level. The focus is on self-esteem, self-respect, sociability, self-efficacy, empathy, goals, emotions, and uplifting others

The characters in the story share their wisdom and remind children of:

- The value of their uniqueness.
- How important it is to express your talents and not downplay them
- How important it is to explore new things
- Not to give up
- The more you encourage others the more you glow.

One of the favorite children's activities is creating your ME TREE. Children create their own special ME TREE and add leaves based on individual qualities they embrace about themselves., celebrating "what is unique about me!"

These values are key to fostering emotional intelligence in your children, creating a core piece of their roadmap to success. Parents, teachers, and children fall in love with the Glow characters. Shimmer has gotten rave reviews from both students and their teachers.

This complete curriculum enables us first-time Home-Schooling Parents, as well as professional teachers to provide quality content in a creative, compelling manner for your elementary school students.

The Grow Your Glow book and curriculum is available along with a Children's App, Children's craft projects and supplies, music, videos, art, writing and journaling option.

Shimmer the Glowworm Finds Her Glow The Musical, based on the Shimmer the Glowworm Book is available to license for groups as a stage show. It's great fun to perform and makes a perfect school fundraiser.

From stickers to tee shirts, you have everything you need to engage and inspire your children.

Shelby would like to invite you participate in her Shelby Glows Poem of the Week Contest. Open to all

aspiring poets, children, and adults alike. Submit your poem and you may be chosen to be Published as the next Poem of the week.
