The new scent **[“Tsukishizuku – Mother of Pearl”](#)** uses Jasmine Sambac and Kobushi Magnolia to create a white floral note that conjures up the image of the pale, milky white shimmer of a beautiful Mother of Pearl, often used in watch faces.

Tsukishizuku -Mother of Pearl-

A floral scent like a shimmering, dewy Moon Drop (Mother of Pearl)

The aroma of a buttery smooth and lusciously sweet Le Lectier pear gives way to the burst of jasmine sambac and kobushi magnolia, conjuring up images of the shimmering, dewy beauty of a mother-of-pearl inlay. The warm base notes of sandalwood and musk recall the faint light and shadows created by a paper lantern.

Since its debut in Japan in 2017 this brand has continued to create innovative fragrances. Among them, “[Roasted Green Tea](#)” with its aromatic scent of high-quality roasted tea leaves, and “[Sumo Wrestler](#)” which recreates the fragrance of a dignified sumo wrestler’s bintsuke hair wax, have become top sellers. These refreshingly new and original fragrances have created constant buzz on social media. The collection has been in [stores](#) from last year primarily on the west coast of the United States.
